

# PS-VE6

The PS-VE6 ventilation power supply unit delivers up to 6 A of output current for controlling 24 V drives. [Click here to obtain details from D+H free of charge!](#)

## Performance features

- + External compact power supply unit, 230 V AC
- + For controlling 24 V DC drives
- + Up to 4 A total drive current
- + Activation, e.g. using 230 V AC ventilation button
- + Detection of high-speed function (high-speed, both input phases switched)
- + High efficiency of 92 % at nominal current
- + Surface-mounted design

# Technical data

## PS-VE6

Supply	230 V AC / +10 % ... -15 % / 50 Hz
Performance	156 W / 165 VA
Output	24 V DC / 6 A
Mode of operation	Short-time duty 30 % duty cycle
Type of protection	IP 66
Temperature range	0 °C ... +60 °C
Housing	Polypropylene
Colour	Light grey (~ RAL 7035)
W x H x D	180 x 130 x 77 mm
Weight	0.6 kg
Art. No.	30.242.30

## Example of application
