# TP Series   Touch Panel

# TP-R2-S-10

Touch panel: its Modbus RTU/TCP interface enables easy connection to the CPS-M controller using the AdComNet/Modbus gateway.

## Performance features

+ HMI touch panel with a 10" screen diagonal and a resolution of 1024 x 600 pixels

+ Modbus RTU/TCP interface for the connection to the CPS-M over the ACN-GW501-MRTU-0200 ACN/Modbus Gateway

+ Versatile range of functions, which can be customised by D+H according to the object

+ Free programming of the functions and the visualisation of the interface

+ Direct control of D+H ACB drives for ventilation functions

# Technical data

| | TP-R2-S-10 |
|---|---|
| Supply | 24 V DC / 0.25 A |
| Resolution | 1024 x 600 pixels |
| Contrast | 500:1 |
| Brightness | 400 cd/m² |
| Touch panel | 4-wire resistive |
| Air humidity | 10 °C - 90 % RH |
| Temperature range | 0 °C … +50 °C |
| W x H x D | 280 x 193 x 36 mm |
| Weight | 0.9 kg |

# Example of application
