

ERM 44

Our ERM 44 end relay module is used to provide OPEN and CLOSED signals from BRV, TMS or BSY+ drives as isolated contacts.

Performance features

- + For isolated OPEN or CLOSED signal of a drive or a drive group
- + Installing in a junction box, for example (not included)
- + Activation via BSY+ line, BRV message or TMS output (only for CDC)
- + Contact load capacity: max. 60 V DC / 1 A

Technical data

ERM 44

W x H x D	50 x 48 x 18 mm
Diameter	0 mm
Weight	0.07 kg
Art. No.	30.552.50
