

- 1 D+H Mechatronik (english)**
- 1.1 RC Series**
- 1.1.1 Wireless transmission module - RCT 003-11-U**

2 group inputs, flush-mounted design**Performance features:**

For controlling D+H radio products with standard flush-mounted keys or isolated contacts;
High level of security against external control - with 128-bit AES encrypted authentication;
Possible to connect to a room temperature control;
For installing in standard flush-mounted socket (not included);

Functions:

OPEN / STOP / CLOSED

Technical data:

Supply: 1 x Lithium CR 2450
Radio frequency: 868.3 MHz / FSK
Encryption: AES / 128 Bit
Transmitting power: approx. 1 mW (e.r.p)
Transmitting range: approx. 100 m (free field)
Wireless standard:
ETSI EN 300220-1:2010
ETSI EN 301489-1:2011
ETSI EN 301489-3:2002
Housing: Plastic
Colour: Grey
Dimensions (WxHxD): 45 x 110 x 15 mm

Scope of supply:

Wireless transmission module incl. ready-for-use connection cable, instruction for use

Brand: D+H Mechatronic AG

Type: RCT 003-11-U
